**Subject:** Fencing around Newquay Golf Course March 2022

Hi

I am a resident of Trevoise Avenue. I would be grateful if you could confirm if you are aware the golf club are planning to erect high fences around the perimeter of the golf course?

A high fence around the perimeter would have detrimental affects on one of the most iconic views of the UK, and one of the few remaining unspoilt views in Newquay. Not to mention the local wildlife.

The uninterrupted view is also important for the well-being of residents & visitors.

The residents would love an opportunity to meet up to discuss their concerns in person and talk about their alternative solutions, which include better signage around & inside the perimeter. We could start a crowdfunding campaign to cover the costs of the signage outside the perimeter.

We would also be interested to know if the golf course plan to fence the footpath running through the middle of the golf course & lock the gates which exist there during tee off time & when the course is closed?

We are happy to work alongside the golf course to reach an amicable solution.

We look forward to hearing from you

Kelly Riddle
