Minute Ref P462/24	<u>Active Consultations</u>	
	Consultation 1	Countrywide 20mph Speed Limits – Phase 3 – Newquay and St Columb
	Reference	Infra23-213-NSC
	Proposal	Cornwall Council intends to implement a 20mph Speed Limit on most residential streets within Newquay, Quintrell Downs, Rosenannon, St Columb Major, St Mawgan & Carloggas, St Wenn, Tregonetha, Tregurrian, Trevarrian, and Watergate Bay (in most locations the existing speed limit is currently 30mph).
	Location	As above
	Applicant	Cornwall Council
Minute Ref P462/24 (1)	Decision	It was proposed by Cllr J Kenny, second by Cllr S Thomson and RESOLVED to SUPPORT Infra23-213-NSC
	Comments	<p>Whilst agreeing to support the scheme, there are some reservations and Cllrs wished to ask the following questions/make the following observations:</p> <ul style="list-style-type: none"> Local feedback received by Cllrs has indicated mixed responses, but it is clear there are residents across the town who have concerns. Many feel that residential streets earmarked for the new 20mph limit often allow on-street parking on at least one side of the road. This has the effect of narrowing the highway to a point where two vehicles are often unable to pass each other

ACTION – D McLeod to return comment to Cornwall Council

– the result being that drivers are already travelling well below 30mph. This being the case, there is strong local feeling that the proposed 20mph limit is unnecessary and that the implementation of the scheme will cost public money that could be better spent elsewhere.

- **Whilst accepting the argument that reducing the speed of vehicular traffic makes residential roads safer, it is wholly unclear how the new 20mph limits will be enforced – it is not considered acceptable to simply state that responsibility for enforcement will lie elsewhere. A fully joined up approach to this scheme is required – this should include both the initial implementation and any ongoing matters, including how these limits will be enforced.**

- **Cllrs are aware the local Taxi/Private Hire Vehicle trade have questioned whether the level of incidents/accidents involving vehicles travelling at 30mph warrants the widescale 20mph limits – Cllrs agreed they were being asked to accept this safety argument without any evidence being provided to back it up.**

- **Where petrol/diesel vehicles are concerned, has any work been undertaken**

	<p>to assess how the 20mph limit will affect vehicle emissions?</p> <ul style="list-style-type: none"> • It is unclear whether a reduction in the speed limit will also reduce the speed limits governing emergency service vehicles. Cllrs wished to know whether this possibility has been given consideration within the scheme. • Cllrs were confused as to why the road between Porth and Watergate Bay will remain unrestricted. Have cliff specialists been asked for their views regarding the B3276 where it passes by the cliffs at Whipsiderry? Is it possible a reduced speed limit would be of benefit here?

	Consultation 2	Newquay Mid Cornwall Metro Active Travel Improvements – Phase 1	
	Reference	Infra23-143	
	Proposal	Cormac, on behalf of Cornwall Council, is inviting comments on a proposal to construct improved walking and cycling provisions through Newquay to provide a continuous link from the Barrowfields in the east, to the SW coastal Path Tramways in the west. This consultation is focused on phase 1 of the 'first and last mile' measures that will improve active travel.

		Infra23-143 - Newquay Mid Cornwall Metro Active Travel Improvements – Phase 1	
	Comments	<p>Cllrs broadly welcome improved arrangements/provision for cyclists across the town but have significant concerns about the current proposals.</p> <p>Cllrs were unconvinced that the entire section of Narrowcliff included in the phase 1 improvements could be considered wide enough to safely accommodate both the existing vehicular traffic and the addition of a dedicated cycle lane.</p> <p>A key point of concern is the length of road in front of the Beresford Hotel, where the highway (and footpath) appear to narrow, creating a potentially dangerous pinch point.</p> <p>Furthermore, coaches can frequently be seen parking immediately outside the Beresford Hotel, particularly when the roads are busy during the summer months, which already causes a level of (manageable) obstruction to vehicular traffic. Should the road be narrowed here it seems likely that coaches delivering holiday makers would no longer be able to park outside the Hotel without causing a significant obstruction to the traffic flow. If the intention is to stop coaches parking here, Cllrs queried whether</p>	<p>ACTION – D McLeod to return comment to CORMAC/ Cornwall Council</p>

	Applicant	Ms S Dean
Minute Ref P469/24 (1)	Decision	It was proposed by Cllr J Kenny, second by Cllr J Brook and RESOLVED unanimously to raise NO OBJECTION to PA24/05988
	Comments	Cllrs felt the front extension would be in keeping with the building and its surroundings and agreed to raise No Objection to the proposals, subject to confirmation from the Case Officer that there would be no unacceptable loss of light/shadowing to the ground-floor street-facing windows associated with nos 1 and 3 Seaside.

	Application 2	Whipsiderry
	Reference	PA24/07657
	Proposal	Proposed garage conversion with rear single storey extension.
	Location	165 Henver Road TR7 3EJ
	Applicant	Mr Stavros Stavrou

Minute Ref P469/24 (2)	Decision	It was proposed by Cllr S Thomson, second by Cllr J Bell and RESOLVED unanimously to raise NO OBJECTION to PA24/07657	
	Comments	Cllrs were satisfied the scale and appearance of the proposed garage conversion with rear single storey extension, including the materials to be used, would be quite appropriate for this setting. Cllrs agreed it was unlikely the proposal would result in any additional overbearing, overlooking or overshadowing of neighbouring properties. Similarly, it was felt the plot size was large enough to accommodate the proposed works whilst still leaving adequate amenity space for the property. However, the comments from South West Water were noted and Cllrs would expect a suitable strategy for managing surface water (and potentially Highways) run-off to be provided. In line with Newquay Neighbourhood Plan policy G2(e), the applicant is encouraged to explore opportunities for including high levels of environmental sustainability, such as renewable energy sources and rainwater harvesting, as part of the overall design. 	Reference	PA23/03400	

	Proposal	Proposed Townhouse	
	Location	Land Adj To 1 King Edward Crescent Dane Road TR7 1HL	
	Applicant	Mr Mark Haddrell	
Minute Ref P469/24 (3)	Decision	It was proposed by Cllr N Morris, second by Cllr J Kenny and RESOLVED to OBJECT to PA24/03400 Cllr K Larsen abstained	
	Comments	Cllrs noted the most recent public comments (dated 14 October 2024) and agreed that the loss of parking currently benefitting the Atlantic Lodge site could not be supported as it would inevitably add to existing local parking pressures in a part of the town where parking is already problematic. Whilst the reduced scale and mass is noted, Cllrs continue to feel the site is in no way suitable for this level of development - the outlook from windows located on the east side of the Atlantic Lodge will be noticeably impacted and will reduce the ability of present and future occupiers to enjoy their homes. The proposed townhouse, situated so close to adjacent buildings, will harm the immediate surroundings by creating an overcrowded, over developed street scene. 	Application 4	Whipsiderry	
	Reference	PA24/07747	
	Proposal	Proposed first floor extension and side extension with full thermal upgrade and internal remodelling in lieu of planning approval PA21/12724	
	Location	12 Whipsiderry Close TR7 3LZ	
	Applicant	Mr and Mrs Templeton	
Minute Ref P469/24 (5)	Decision	It was proposed by Cllr J Brook, second by Cllr J Kenny and RESOLVED unanimously to NO OBJECTION to PA24/07747	
	Comments	<p>Cllrs recalled their support for PA21/12724 and agreed that although the new proposals differed from the approved plans, the overall scheme remained largely in-keeping with the extant permission.</p> <p>The application documents suggest considerable emphasis has been placed on creating an environmentally sustainable dwelling and this was welcomed by the Committee and, as per the previous permission, Cllrs would expect the addition of an appropriate annexe condition.</p> <p>The inclusion of a permeable surface for the drive was welcomed, however, when considering the visualisations (drawing</p>	ACTION - post NO OBJECTION on CC Planning Register

		072_S3_DR_PR_2002 REV 01) and proposed site plan there was some uncertainty as to the potential loss of existing greenery. Cllrs would encourage this is either retained, or replaced, inline with the CC Climate Emergency DPD policies C1 and G1.	
	Application 5	Trenance	
	Reference	PA24/07781	
	Proposal	Proposed new room in roof dormer window and rear extension.	
	Location	29 St Georges Road TR7 1RD	
	Applicant	Mrs Jenny New	
Minute Ref P469/24 (6)	Decision	It was proposed by Cllr S Thomson, second by Cllr J Bell and RESOLVED unanimously to OBJECT to PA24/07781	
	Comments	The 2003 CSUS Study draws attention to the Edwardian terraces that typify development along St Georges Road and Cllrs were concerned that the proposal would appear significantly out of keeping with its historic surroundings. It is recognised that at least one property within this terrace (no41) has lost much of its character detail through the addition of a street-facing dormer; however, it is considered the wrap-around dormer proposed as part of this current application would significantly harm the appearance of	ACTION – post OBJECTION on CC Planning Register

no29 and would be seriously at odds with the existing street scene. Cllrs were further concerned that the new views resulting from the dormer and the rear balcony would potentially create overlooking issues and a loss of privacy to no25. It was noted that a rear balcony/terrace is in place at first-floor level (permitted under PA17/10413) and Cllrs were concerned with how this would impact/be impacted by current proposals for a first-floor balcony at the rear of no29.

	Application 6	Porth & Tretherras	
	Reference	PA24/07833	
	Proposal	Single storey side extension and addition of dormer to the rear aspects of the roof, as well as demolition of existing redundant chimneys.	
	Location	9 Gololdphin Way TR7 3BU	
	Applicant	Caroline Wadman	
Minute Ref P469/24 (7)	Decision	It was proposed by Cllr S Thomson, second by Cllr J Bell and RESOLVED unanimously to raise NO OBJECTION to PA24/07833	
	Comments	Cllrs were satisfied the scale and appearance of the proposed extension and rear dormer, including the materials to be used, would be quite appropriate for this setting. 	Proposal	<p>Non Material Amendment (1) to Application No. PA22/01207 dated 3rd February 2023 for Demolition of existing hotel and construction of new holiday accommodation and residential dwellings including management facilities and associated infrastructure (revised plans), namely:-</p> <ul style="list-style-type: none"> • Reduction in height of 3 out of the 5 plots incorporating three-storey dwellings. • An increase to the ground floor space (note: with no impact on the building footprints or GIA) with a reduction in the more visibly imposing top floor to balance out increased ground floor space and maintain the approved GIAs.

	Applicant	Mr And Mrs Burbidge	
Minute Ref P469/24 (8)	Decision	It was proposed by Cllr J Kenny, second by Cllr J Bell and RESOLVED unanimously to raise NO OBJECTION to PA24/08016	
	Comments	Cllrs noted local concerns, but agreed the proposed amendments were unlikely to result in a loss of privacy to neighbouring dwellings. The Town Council has repeatedly voiced concerns when large white render finishes have been used on new developments, so the proposed alternative is largely welcomed. There was some conversation about whether this application should be considered as a Non-Material Amendment, given the scale of proposed changes.	ACTION - post NO OBJECTION on CC Planning Register
